CHARLES ELMER DONER	Penmanship
WALTER GEORGE WHITMAN, A.M.	Physical Science
VERNA BELLE FLANDERS	Geography
LENA GRAYSON FITZHUGH, A.B.	History and social science
ALEXANDER HUGH SPROUL, M.S.	Business education
MARIE BADGER	Shorthand, typewriting
FLORENCE BARNES CRUTTENDEN, B.S., A.M.	History and social science
MAUD LYMAN HARRIS, A.M.	Literature, English
ALICE HAYWARD EDWARDS, A.B.	Office training, shorthand
AMY ESTELL WARE, M.A.	Geography
CAROLINE EDITH PORTER, B.S., M.A.	Children's literature, reading
HAROLD FRANCIS PHILLIPS, M.C.S.	Accounting, business
MILDRED BROWNING STONE, B.S.Ed.	Arithmetic
GEORGE FALLOWS MOODY, B.S.Ed., LL.B.	Education
MIRA WALLACE	Physical education and hygiene
LUCY STATEN BELL, B.S.	Librarian, Library practice
JEAN FRANCIS BAIRD, B.S.Ed.	Assistant, drawing and handwork
LEON HOWARD ROCKWELL, B.S., A.M.	Education
AGNES KATHERINE BRENNAN, M.S.	Bookkeeping, arithmetic, salesmanship
DOROTHY MARIE LYONS, B.S.Ed., A.M.	English
CARRIE MINNETTE BROWN	Assistant, physical education and hygiene
FREDERIKA MOORE, M.D.	School Physician
ANN KEENAN CLARK	Bookkeeper and secretary
LOUISE CAROLINE WELLMAN	Registrar

THE TRAINING SCHOOL

GEORGE FALLOWS MOODY, B.S.Ed., LL.B.	Director
MARY IMELDA DWYER	Supervisor, Grade 8
ESTHER LOUISE SMALL	Supervisor, Grade 7
LILLIAN MAUDE BESSE	Supervisor, Grade 6
MARY LILLIAN PERHAM	Supervisor, Grade 5
ESTHER FRANCES TUCKWELL	Supervisor, Grade 4
MARY ELIZABETH JAMES	Supervisor, Grade 3
MARY FOSTER WADE	Supervisor, Grade 2
SÝBIL INEZ TUCKER	Supervisor, Grade 1 and kindergarten
MARION BERTHA KENISTON	Assistant, Grade 1
ETHEL VERA KNIGHT	Kindergartner; assistant in primary grades
ELEANOR ELIZABETH WALKER	Special class
FLORENCE ADAMS, B.S.Ed.	Household arts
GEORGE WILLIAM LITTLE	Practical arts

CALENDAR

1928

January 3, Tuesday	Recess ends at 9.30 A. M.
January 30, Monday	Second half-year begins
February 22, Wednesday	Washington's birthday; a holiday
February 25, Saturday	Recess begins
March 5, Monday	Recess ends at 9.30 A. M.
March 30, Friday	Good Friday; a holiday
April 19, Thursday	Patriot's Day; a holiday
April 28, Saturday	Recess begins
May 7, Monday	Recess ends at 9.30 A. M.
May 30, Wednesday	Memorial Day; a holiday
June 7, Thursday {	Entrance examinations
June 8, Friday }	
June 14, Thursday	Class Day
June 15, Friday	Graduation exercises at 10.30 A. M.
June 29, Friday	Training school closes
September 10, Monday	Training school opens
September 10, Monday {	Entrance examinations
September 11, Tuesday }	
September 12, Wednesday	Academic year begins at 9.30 A. M.
October 12, Friday	Columbus Day; a holiday

June 28, Friday	Graduation exercises at 10.30 A. M.
	Training school closes

* See program of examinations, page 4.

NOTE.—The daily sessions of the school are from 9.30 to 12.25, and from 1.05 to 3.45 o'clock. The time from 8.30 to 9.30 and from 3.00 to 3.45 o'clock is to be used for study by all students who are in the building. From 3.00 to 3.45 o'clock, all students who have no class assignment are subject to appointments for conferences with members of the faculty at the discretion of the latter. Lectures before the entire school will frequently be held at this time. The regular weekly holiday of both the normal and the training schools is on Saturday.

The telephone call of the normal school is Salem 375; of the training school, Salem 344.

The principal's residence is at 1 Fairfield Street, and his telephone call is Salem 34.

PROGRAM OF ENTRANCE EXAMINATIONS

Candidates are not required to present themselves at the school earlier than the hour of the first examination they wish to take.

THURSDAY, JUNE 7, AND MONDAY, SEPTEMBER 10, 1928

8.30-10.30	English literature and composition	3 units
Foreign Language Commercial Subjects 10.30-12.30	{ Latin	2, 3 or 4 units
	{ Stenography (including typewriting)	1 or 2 units
Social Studies 1.30-4.30	{ Bookkeeping	1 unit
	{ Commercial geography	$\frac{1}{2}$ or 1 unit
	{ Commercial law	$\frac{1}{2}$ unit
	{ Community civics	$\frac{1}{2}$ or 1 unit
	{ American history and civics (required after 1922)	1 unit
	{ History to about 1700	1 unit
	{ European history since 1700	1 unit
	{ Economics	$\frac{1}{2}$ unit
	{ Problems of democracy	$\frac{1}{2}$ or 1 unit
	{ Ancient history	1 unit
	{ English history	1 unit
	{ Medieval and modern history	1 unit

FRIDAY, JUNE 8, AND TUESDAY, SEPTEMBER 11, 1928

Mathematics 8.30-10.30	{ Algebra	1 unit
	{ Arithmetic	1 unit
	{ Geometry	1 unit
Foreign Language 10.30-12.30	{ French	2 or 3 units
	{ Spanish	2 units
	{ German	2 or 3 units
Science 1.30-4.00	{ General science	$\frac{1}{2}$ or 1 unit
	{ Biology, botany, or zoology	$\frac{1}{2}$ or 1 unit
	{ Chemistry	1 unit
	{ Physics	1 unit
	{ Physical geography	$\frac{1}{2}$ or 1 unit
	{ Physiology and hygiene	$\frac{1}{2}$ or 1 unit
Fine and Practical Arts 3.30-5.00	{ Home economics	1 or 2 units
	{ Manual training*	1 unit
	{ Drawing	$\frac{1}{2}$ or 1 unit

All candidates who are to take examinations in a given field are expected to present themselves promptly at the time set for the beginning of the examinations in that field.

Candidates are not to present themselves for examinations in subjects not pursued for an equal number of points, in terms of our entrance requirements, during the last four years of the secondary school.

* To be accepted for the practical arts course at Fitchburg only.

STATE NORMAL SCHOOL

SALEM, MASSACHUSETTS

AIMS AND PURPOSES

The aim of the school is distinctly professional. Normal schools are maintained by the State in order that the children in the public schools of the Commonwealth may have teachers of superior ability; therefore no student may be admitted to, or retained in, the school who does not give reasonable promise of developing into an efficient teacher.

The school offers as thorough a course of academic instruction as time permits and the claims of professional training demand. The subjects of the public school curriculum are carefully reviewed with reference to methods of teaching. The professional training includes the study of physiology and hygiene, and of psychology from a professional standpoint; the principles of education upon which all good teaching is founded; observation and practice in the application of these principles; and a practical study of children, under careful direction. In all the work of the school there is a constant and persistent effort to develop a true professional spirit, to reveal to the student the wealth of opportunity which is open to the teacher, and the grandeur of a life of service.

APPLICATION FOR ADMISSION

Applications will be accepted from January 1 to June 14 inclusive of the year in which the candidate wishes to enter the school. All credentials must be in the office of the normal school before June 15.

On July 1 a statement will be mailed to each candidate: that she is admitted; that she is on the waiting list of qualified applicants; or that she has failed to qualify. Candidates who, after being informed that they have qualified, decide not to enter the school should inform the office of their withdrawal immediately in order that others may be admitted from the waiting lists to fill the vacant places.

In 1928, no place will be held for a student who is not present at the opening of the session on Wednesday, September 12, unless she has the previous permission of the principal to be absent on that day.

EVALUATION OF CREDENTIALS

When the number of qualified applicants on July 1 is in excess of the number that can be admitted, the plan for selecting students outlined on page 8 will be in effect.

REQUIREMENTS FOR ADMISSION

I. APPLICATION FOR ADMISSION. — Every candidate for admission to a normal school is required to fill out a blank entitled Application for Admission to a State Normal School and send it to the principal of the normal school that he desires to enter. This blank may be secured from the principal of the high school or the normal school, and should be filed as soon after January 1 of the senior year of the applicant as is convenient, and, together with other necessary blanks must be filed before June 15 of that year.

Under the rules of the Massachusetts Department of Education, applications for admission to the normal schools of the State may not be received prior to

January first of the year in which the candidate desires to be admitted. Applications for succeeding years may be renewed under the same condition.

II. **BLANKS TO BE FILED BY THE HIGH SCHOOL PRINCIPAL.**¹ — The principal of the high school last attended is expected to fill out two blanks, one giving the high school record, and the other a rating of personal characteristics, and send them to the principal of the normal school so that he will receive them before June 15.

III. **GENERAL QUALIFICATIONS.** — Every candidate for admission as a regular student must meet the following requirements:—

1. *Health.* — The candidate must be in good physical condition and free from any disease, infirmity, or other defect that would unfit him for public school teaching. Each applicant must pass a satisfactory physical examination before final admission can be gained. This examination will be given at the normal school at Salem, by the school physician, soon after the opening of the term in September.

2. *High School Graduation.* — The candidate must be a graduate of a standard four-year high school, or have equivalent preparation.

3. *Completion of Fifteen Units of High School Work.* — The high school record must show the completion of fifteen units accepted by the high school in meeting graduation requirements, a unit being defined as follows:—

A unit represents a year's study in any subject in a secondary school, so planned as to constitute approximately one-fourth of a full year of work for a pupil of normal ability. To count as a unit, the recitation periods shall aggregate approximately 120 sixty-minute hours. Time occupied by shop or laboratory work counts one-half as much as time in recitation.

4. *Personal Characteristics.* — The rating of personal characteristics and the moral character of the candidate, must, in the judgment of the principal of the normal school, warrant the admission of the candidate.

IV. **SCHOLARSHIP REQUIREMENTS.** — Of the fifteen units presented for admission, at least ten must be selected from the list given below in Section V, and must be of a satisfactory grade as determined by certification or examination. Three of these ten units must be in English and one in American history and civics. (Applicants for admission to the practical arts curriculum of the Fitchburg Normal School may substitute evidence of practical experience in some industrial pursuit to meet a part of the above requirements.)

1. *Certification.* — Credit by certification may be granted in any subject in which the candidate has secured a certifying mark (A or B) in the last year for which such credit is claimed, provided that the student is a graduate of a Class A high school or is in the upper half² of the graduating class of a Class B high school.

2. *Examination.* — Any candidate not securing credit by certification for ten units must secure credit for the remaining number of units by examination in subjects chosen from the list in Section V.

3. Candidates are not to present themselves for examination in subjects not pursued during the last four years of the secondary school.

V. LIST OF SUBJECTS FOR CERTIFICATION OR EXAMINATION

Required (4 units)

English, literature, and composition	3
American history and civics	1

¹These forms should be obtained from the office of the Department of Education.

²The upper half of a graduating class shall, for this purpose, consist of those pupils who have obtained the highest rank as determined by counting for each pupil in the graduating class the number of units in which he has secured the mark of B increased by twice the number of units in which he has secured the mark of A.

Elective (6 units)

The candidate may make up the total of six elective units from any combination of the subjects listed below, except that these units must be so distributed that the number offered in any field shall not exceed the limits set for it, and with the proviso that the minimum total amount offered in any one of these six fields shall be one unit, for the class entering in September, 1927, and thereafter.

										Units
Social studies, 1 to 3 units										
Community civics	$\frac{1}{2}$ or 1
History to about 1700	1
European history since 1700	1
Economics	$\frac{1}{2}$
Problems of democracy	$\frac{1}{2}$ or 1
Ancient history	1
English history	1
Medieval and modern history	1
Science, 1 to 3 units										
General science	$\frac{1}{2}$ or 1
Biology, botany, or zoology	$\frac{1}{2}$ or 1
Chemistry	1
Physics	1
Physical geography	$\frac{1}{2}$ or 1
Physiology and hygiene	$\frac{1}{2}$ or 1
Foreign language, 2 to 4 units										
Latin	2, 3, or 4
French	2 or 3
Spanish	2
German	2 or 3
Mathematics, 1 to 3 units										
Algebra	1
Geometry	1
Arithmetic	1
College review mathematics	1
Commercial subjects, 1 to 2 units										
Stenography (including typewriting)	1 or 2
Bookkeeping	1
Commercial law	$\frac{1}{2}$
Commercial geography	$\frac{1}{2}$ or 1
Fine and practical arts, 1 to 2 units										
Home economics	1 or 2
Manual training*	1
Drawing**	$\frac{1}{2}$ or 1

* To be accepted for the practical arts course at Fitchburg and Massachusetts School of Art only.

** A maximum of two units will be accepted for admission to the Massachusetts School of Art.

Additional (5 units)

The five additional units, necessary in order to make up the fifteen units required for admission, may consist of any work which the high school accepts as meeting its graduation requirements.

VI. PLACE, TIME, AND DIVISION OF EXAMINATIONS. — Entrance examinations may be taken in June and September at any state normal school (including the Massachusetts School of Art) at the convenience of the applicant. A candidate may take all the examinations at one time or divide them between June and September. Students who have completed the third year in a secondary school may take examinations in not more than five units other than English, in either June or September. Permanent credit will be given for any units secured by examination or certificate.

VII. ADMISSION AS ADVANCED STUDENTS. — A graduate of a normal school or of a college may be admitted as a regular or advanced student, under conditions approved by the Department.

VIII. ADMISSION OF SPECIAL STUDENTS. — When any normal school, after the opening of the school year, can accommodate additional students, the commissioner may authorize the admission as a special student of any mature person recommended by the principal as possessing special qualifications because of exceptional and vital experience and achievement outside of school. Special students are not candidates for diplomas or degrees until they qualify as regular students, but they may receive certificates from the department upon the satisfactory completion of the work of any curriculum.

EVALUATION OF CREDENTIALS

When the number of qualified applicants on July 1 for any of the normal schools or the Massachusetts School of Art is in excess of the number that can be admitted, the scholarship records and the ratings of personal characteristics of all applicants for that school will be evaluated in accordance with the method given below. Candidates will then be admitted in the order of their total scores up to the capacity of the school.

The existing rules with reference to the distribution and certification of subjects, as stated on pages 6-7 of this catalog, will still be in force. When the selective process is found necessary, an evaluation of the scholarship and personality records of students, as received from the high schools, will be made on the following basis:

(a) Scholarship will be allowed 75 points for 15 units of work.

(b) Personality will be allowed 25 points.

As a basis of computing the total score from the *scholarship record*, marks will be evaluated as follows: A, 5 points; B, 4 points; C, 3 points; D, 2 points. (For the system of marking, see the Manual for High Schools, page 24.)

As a basis of computing the *personality record*, which includes ten characteristics, exclusive of health, ratings will be evaluated as follows; superior, 2½ points; excellent, 2 points; good, 1½ points; fair, 1 point.

Health: Each applicant must pass a satisfactory physical examination before final admission can be gained. This examination will be given at the normal school at Salem, by the school physician, soon after the opening of the term in September.

REQUIREMENTS FOR ADMISSION TO THE COMMERCIAL DEPARTMENT¹

The requirements for admission to the prescribed course of four years which leads to the degree of bachelor of science in education are the same as for students who apply for admission to the elementary and junior high departments.

Graduates of normal schools or colleges, and graduates of approved commercial schools who present either diplomas from approved high schools or the equivalent and who have had at least one year's experience in teaching or in business, and other persons presenting evidence of proper fitness and of at least two years of satisfactory experience in teaching or in business, may be admitted to a special elective course of two years if conditions in the department permit.² An appropriate certificate will be granted to students who complete such a course.

CONDITIONS OF GRADUATION

The following is quoted from the regulations of the State Department of Education for the administration of the normal schools:

Each student who has faithfully and honorably completed a full course of study in a normal school, shall, upon recommendation of the principal of the

¹ The study of commercial subjects in the secondary school is not a prerequisite for admission to this department.

² At present, the enrollment in the four-year course is so large as to leave no room for students in shorter courses.

school, and with the approval of the commissioner, receive a diploma of graduation or a degree. Graduates of standard colleges or normal schools may receive a diploma from the elementary or junior high school departments upon the completion of a year of satisfactory work. No diploma or degree will be given until (1) all required work shall have been accomplished and (2) a rank of C or better is secured in seventy-five per cent of the final marks in the curriculum.

The satisfactory accomplishment of the academic work of the course does not constitute a complete title to the diploma of the school. The power of the student to teach — judged from his personality and his efficiency in practice teaching — is so important that one who is manifestly unable to do so will not be graduated whatever his academic standing may be.

SPECIAL EDUCATION DEPARTMENT

COURSES FOR TEACHERS OF RETARDED CHILDREN. — A state law approved July 1, 1919, provides that all towns having ten children three or more years retarded "shall establish special classes to give such children instruction adapted to their mental attainments." There are nearly four hundred classes of this type in the state at present. The State Normal School at Salem aims to supply the rapidly increasing demand for teachers of these classes and offers a course three years in length for their training; this consists of the work prescribed for the two-year elementary course (see the curriculum, page 11), and a third year which includes, in addition to the specialized courses in psychology, methods, mental testing, etc., courses in hand work and design; shop work, gardening, and printing; simple cooking and sewing. Each of the courses in hand work will receive two hours a week for twenty-eight weeks. Following preliminary observation and participation under supervision in the special class in the training school, ten weeks of practice will be required. The greater part of the practice will be in special classes in Everett and Reading; there will also be opportunity to visit the Walter E. Fernald State School at Waverley and similar state institutions. Observation and practice in the regular grades in the training school will be included in the curriculum of the second year.

COURSE FOR TEACHERS OF THE DEAF. — A course is offered for a limited number of students to train as teachers for the deaf. This course consists of two years of training in the elementary department at the normal school with observation in the Horace Mann School for the Deaf in Boston, and observation and practice teaching in the Beverly School for the Deaf and the day class for the deaf at Lynn. A third year is spent in the Clarke School for the Deaf, Northampton. In addition to the diploma of the two-year elementary course from the normal school, a special certificate is awarded by the Clarke School for the Deaf.

THE OBSERVATION AND TRAINING DEPARTMENT

THE ELEMENTARY DEPARTMENT. — In co-operation with the school committee of the city of Salem, the normal school maintains a training school, which includes grades I-VIII, a special class, and a kindergarten. The training school is conducted in a modern building especially designed for its purpose. Besides thirty classrooms it contains an assembly hall, a library, and rooms for printing, bookbinding, the practical arts, and the household arts.

In planning the instruction in this school the aim is to connect it as closely as possible with the work in the normal school, to the end that its methods may exemplify the theory given in the normal school courses. A considerable part of the instruction in the training school is either supervised or actually given by normal school teachers, and the work in the normal school in particular subjects, as well as in the theory of education, is based largely on directed observation in the training department.

In preparing students for responsible practice teaching, they are brought into contact with the training school during their first year in the normal school. Observation of teaching is carefully directed by the grade supervisors; written

reports of different types of lessons taught by the supervisors are made by the students; and students participate in school activities so far as this seems feasible. Students are given the opportunity for such a series of directed observation lessons in as wide a range of grades as possible. General problems of classroom procedure are discussed with them by the director. The aim of the work is to develop a feeling for the problems of teaching, some familiarity with its technique, and some intelligent notion on the part of students as to the grades in which they would like to do their practice teaching.

For one-fourth of their senior year, students are assigned to the training school for practice teaching under the direction of the grade supervisors who are responsible for the progress and discipline of pupils and the continuity and efficiency of the lesson preparation and classroom instruction of the student teachers, subject to the general direction and advice of the director of the school.

Opportunity is provided for students who intend to teach in the first grade to observe in the kindergarten, in order that they may become familiar with the theory and methods of the kindergarten and its relation to the rest of the elementary school system.

Facilities for practice teaching are also provided in selected public schools in towns and cities conveniently near the normal school.

THE JUNIOR HIGH SCHOOL DEPARTMENT. — Students who are preparing to teach in the junior high school spend one-fourth of the sophomore and one-fourth of the senior year in practice teaching. A part of this time is spent in selected junior high schools in convenient locations. In these schools the practice is carried on under the personal supervision of the director of the training department, and the teachers and supervisory officers of the several schools.

THE COMMERCIAL DEPARTMENT. — The necessary opportunity for observation and practice teaching for students in this department is afforded in approved high schools with which arrangements for supervision have been made.

Students are required to spend one-half of the third year of the course in office work, for pay, under actual business conditions, in positions which have been approved by the school; and their work in these positions must be of such a character, both in quality and in variety, that it may be accepted for credit toward the degree of the department. In accordance with the rule of the Department of Education, this half year of practical experience must be completed not less than one year prior to the end of the school course.

TRAINING SCHOOL BUILDING

CURRICULA

A period is fifty minutes in length

A. ELEMENTARY DEPARTMENT

Designed for students preparing to teach in the first six grades of elementary schools.

Continued directed observation and practice in the special class

FOR SCHOOLS FOR THE DEAF.

First and second years. Identical with A, with the addition, in the second year, of four weeks of directed observation and practice in schools for the deaf for the purpose of affording an intelligent basis for a decision as to whether a course in the Clark School for the Deaf will be elected.

Third year. To be spent in training in the Clark School for the Deaf, Northampton, Massachusetts.

In the following pages, courses for elementary school teachers are marked A; for junior high school teachers, B; for commercial teachers, C; for teachers of atypical children, D.

ENGLISH LANGUAGE

ENGLISH LANGUAGE 1. (A, B) COMPOSITION. — MISS LYONS.

First year. Nineteen weeks, three class periods and three hours of preparation weekly.

Intensive practice in oral and written forms to develop a clear and forceful expression. Special stress upon the technique determined by the felt needs of the student as revealed in the program of the work. Reports and discussion of students' needs; directed reading; oral and written exercises; criticism; conferences, required and optional.

ENGLISH LANGUAGE 2. (A) TEACHING OF ENGLISH IN THE FIRST SIX GRADES. — MISS LYONS.

Second year. Two class periods and two hours of preparation weekly.

The teaching of essentials in oral and written composition in the elementary school with special emphasis upon sentence sense, paragraph structure, and discriminating use of words. Development of standards for teaching composition through (1) directed reading in the teaching of English; (2) directed observation of graded teaching lessons; participation in the planning and teaching of illustrative lessons; criticism and discussion; (3) critical study of language books for the elementary grades.

ENGLISH LANGUAGE 4. (B) COMPOSITION. Discussion, reading, themes, criticism, conference. — MISS LYONS.

Second year. Two class periods and two hours of preparation weekly.

Advanced study of oral and written forms to develop ability in correct and artistic expression. An effort will be made to correlate this work with the courses in literature, history, education, hygiene, and geography.

ENGLISH LANGUAGE 3. (B) TEACHING OF ENGLISH IN GRADES 7 AND 8 AND IN JUNIOR HIGH SCHOOL. — MISS LYONS.

Third year. Two class periods and two hours of preparation weekly.

The teaching of oral and written composition in the junior high school through (1) directed reading in the teaching of English; (2) participation in the planning and teaching of lessons which apply the best in recent educational theory of the teaching of English; (3) critical study of English text books for the junior high school.

ENGLISH LANGUAGE 5. (C) RHETORIC AND COMPOSITION. Themes, criticism, dictation, correction of papers, conference. — MISS HARRIS.

First year. Two class periods and two hours of preparation weekly.

Study of the paragraph; the sentence (including grammar); words; the study of models; oral and written composition; spelling and definition; punctuation and capitalization. Aims: clear thinking and effective speech and writing.

ENGLISH LANGUAGE 6. (C) EXPOSITION, DESCRIPTION, NARRATION. — MISS HARRIS.

Second year. Two class periods, two to three hours of preparation weekly, and frequent conferences.

Collecting and organizing material and presenting it in oral or written form. Reading specimens of prose composition; guidance in reading for recreation. Many short and frequent long themes; training in securing and holding the attention of the class by reading aloud; giving abstracts of stories and of other reading; criticism; discussion. Aims: clear, full, and interesting presentation.

ENGLISH LANGUAGE 7. (C) BUSINESS ENGLISH AND CORRESPONDENCE. — MISS BRENNAN.

Fourth year. One class period and one hour of preparation weekly.

Aim: to give the student a thorough training in business letter and report writing. The teaching of business English in high schools is thoroughly discussed.

ENGLISH LANGUAGE 8. (A, B) METHODS OF TEACHING READING IN GRADES 1 and 2. — MISS PORTER.

First year. Twelve weeks. Two class periods and two hours of preparation weekly.

A course dealing with the "learning to read" stage, and phonetics.

ENGLISH LANGUAGE 9. (A, B) READING AND STORY TELLING. — MISS PORTER.

First year. Twenty-six weeks. Two class periods and two hours of preparation weekly.

A course in the technique of reading and story telling which aims to meet both the personal and the professional needs of the student. The reading problems of grades 3 to 6, inclusive, are emphasized by means of observation, discussion, and practical plan-making.

For the junior high freshmen, the reading problems of the junior high school grades are emphasized.

ENGLISH LANGUAGE 10. (A) PRACTICE AND METHODS COURSE IN PENMANSHIP FOR TEACHERS OF THE FIRST SIX GRADES. — MR. DONER.

Second year. Two class periods and one hour of preparation weekly.

Aim: to train students to write well on paper and on the blackboard, in order that they may possess the skill required to teach penmanship in the first six grades. Demonstration lessons before classes are required which give the student confidence and ability to teach. Class discussion of the best methods for securing the maximum of results in the minimum of time.

ENGLISH LANGUAGE 11. (B) PRACTICE AND METHODS COURSE IN PENMANSHIP FOR TEACHERS IN GRADES 7 AND 8 AND JUNIOR HIGH SCHOOL. — MR. DONER.

Second year. One class period and one hour of preparation weekly.

Aims and methods as in English Language 10.

ENGLISH LANGUAGE 12. (C) BEGINNER'S COURSE IN PENMANSHIP. — MR. DONER.

First year. One class period and one hour of preparation weekly.

Aim: to develop letter-form and freedom of movement.

ENGLISH LANGUAGE 13. (C) ADVANCED COURSE IN PENMANSHIP TO PERFECT FORM AND CONTROL OF MOVEMENT. — MR. DONER.

Fourth year. One class period and one hour of preparation weekly.

Training in three special branches of handwriting: ornamental, engrosser's script, and lettering. The aim is to assist students in simple engrossing work for diploma and certificate use.

ENGLISH LANGUAGE 15. (C) PENMANSHIP. — MR. DONER.

One-half of third year. Two class periods and two hours of preparation weekly.

Application of penmanship to various uses in office work.

ENGLISH LANGUAGE 16. (C) PARLIAMENTARY PROCEDURE AND PUBLIC SPEAKING. — MISS BRENNAN.

Fourth year. One class period and one hour of preparation weekly.

The conduct of public assemblages, speech composition, forms of public address, persuasion, processes of argument and refutation.

ENGLISH LANGUAGE 17. (C) MISS HARRIS.

First year. Two class periods and two hours of preparation weekly.

Students entering with satisfactory knowledge and skill in shorthand and typewriting may substitute this course with Office Training 1 and Typewriting 1a for Shorthand 7 and Typewriting 1.

LITERATURE

LITERATURE 1. (A, B) CHILDREN'S LITERATURE. — MISS PORTER.

First year. Thirty-eight weeks. One class period and two hours of preparation or observation weekly.

Aims: to lead to an acquaintance with and appreciation of subject-matter; to give an opportunity to study its use in the first six grades of the elementary

THE LIBRARY

school; and to give practice in selecting and organizing material for use in these grades.

For the junior high freshmen, the course includes literature suited for the junior high school grades and emphasis is placed upon that work.

LITERATURE 2. (A) APPRECIATION OF LITERATURE. — MISS HARRIS.

Second year. Two class periods and two to three hours of preparation weekly.

This course aims to broaden the student's appreciation of literature and to give him help in selecting books for his general reading. Both standard and current writers are studied. The topics covered are: the enjoyment of poetry; how to tell a good novel; how to produce a play; the selection of biographies and other books of inspiration. Each student chooses his own subject and writes during the year three long themes suggested by the main topics of the course, or the equivalent.

LITERATURE 3. (B) TEACHING OF LITERATURE IN GRADES 7 AND 8 AND JUNIOR HIGH SCHOOL. — MISS PORTER.

Second year. Two class periods and two to three hours of preparation weekly.

This course, which takes up methods of classroom work, embraces studies in poetry, in popular stories and standard books, together with the means of arousing in children an appreciation for literature and of cultivating in them the habit of reading good books.

LITERATURE 4. (C) GENERAL LITERATURE. — MISS HARRIS.

Fourth year. Two class periods and two to three hours of preparation weekly. Occasional papers.

Aim; to arouse a keener appreciation and enjoyment of good literature. The various literary types are studied with their best representative authors, and some attention is given to historical development. Works of authors of admitted superiority are used to establish a standard of comparison, and these are followed by a study of contemporary writers.

LITERATURE 6. (B) ADVANCED COURSE IN TEACHING LITERATURE. — MISS HARRIS.

Third year. Three recitations and from three to four hours of preparation weekly. Elective.

This course is for students who wish to specialize in teaching literature in the junior high school. Its aim is to give a background for the work which is both academic and professional. Some of the subjects covered are: the great epics, ballads and other forms of lyrical poetry, modern poetry, current essays, the philosophy of the short story; methods for their presentation in the junior high school.

LITERATURE 7. (B) STUDIES IN LITERARY MOVEMENTS. — MISS HARRIS.

Third year. Two recitations and two to three hours of preparation weekly.

The aim of this course is both cultural and professional: to make the student acquainted with great literary works, and to help him to appreciate the literary changes which keep pace with social ideals. The course includes a knowledge of the technique of the drama, and a study of stage craft; a teaching presentation of Shakespeare's plays; a study of the development of the English novel and biography; modern poetry.

LIBRARY STUDY

LIBRARY STUDY. (A, B) A COURSE IN THE TECHNICAL KNOWLEDGE AND USE OF LIBRARIES. — MISS BELL.

One-half of first year. One class period and one to two hours of preparation weekly.

Aims: to bring students into close touch with the school library, show its resources and train to their efficient use; to encourage observation and practice in the home public library; to develop and foster the right attitude towards books and libraries. Topics: decimal classification; arrangement on the library shelf; card catalogue; magazine index; book index and table of contents; reference books; investigation of a subject in a library; government publications; book selection and buying; the general principles of classification and cataloguing; relations between the public library and the public school.

HISTORY AND SOCIAL SCIENCE

HISTORY AND SOCIAL SCIENCE 1. (A) METHODS OF TEACHING HISTORY IN THE ELEMENTARY SCHOOL. — MISS FITZHUGH.

First year. Two class periods and two hours of preparation weekly for one-half year; three class periods and three hours of preparation weekly for one-half year.

Discussion of subject matter and aims for the first six grades. Projects. Socialized recitation. Field trips. Best methods for presenting to children discussed with view to setting correct historical attitudes and skills.

HISTORY AND SOCIAL SCIENCE 2. (A) MISS FITZHUGH.

Second year. Two class periods and two hours of preparation weekly.

First half year. Principles of social and economic science in an elementary way for the teacher's own background.

Second half year. Methods of teaching community civics in the first six grades and of correlating it with history and other studies.

HISTORY AND SOCIAL SCIENCE 3. (B) METHODS OF TEACHING HISTORY AND SOCIAL SCIENCE IN GRADES 7 AND 8 AND JUNIOR HIGH SCHOOL. — MISS CRUTTENDEN.

Second year. Two class periods and two hours of preparation weekly.

Development of general world history as it pertains to and explains American history from 1783 to the present. Discussion of aims, methods, and material in teaching history.

HISTORY AND SOCIAL SCIENCE 4. (B) PROBLEMS IN PRESENT-DAY DEMOCRACY FOR JUNIOR HIGH SCHOOL. — MISS CRUTTENDEN.

Third year. Four class periods and four hours of preparation weekly. Elective.

Current events: Work based on current newspapers and magazines. Emphasis placed on material and methods suitable for junior high school.

Community civics: Study of aims, courses, materials, and methods for junior high school.

HISTORY AND SOCIAL SCIENCE 7. (C) HISTORY OF COMMERCE. — MISS CRUTTENDEN.

First year. Three class periods and three hours of preparation weekly.

Survey of field of commerce from ancient times to the present. Special emphasis on emergence of present-day problems from past inheritances. Study of causes and effects. Stress on the importance of commercial relations to a people's progress and institutions.

HISTORY AND SOCIAL SCIENCE 8. (C) ECONOMICS. CONTEMPORARY ECONOMIC PROBLEMS. — MISS CRUTTENDEN.

One-half of third year. Three class periods and three hours of preparation weekly.

Principles of economics. Emphasis on the theoretical side with practical application whenever possible.

HISTORY AND SOCIAL SCIENCE 9. (C) COMMERCIAL LAW. — MR. PHILLIPS.

One-half of third year. Three class periods and three hours of preparation weekly.

An inductive study of the application of the principles of justice to ordinary commercial relationships, aiming to develop a judicial habit of mind in the consideration of business affairs, and to acquaint the student, by the use of the case method, with interpretations governing business relationships.

HISTORY AND SOCIAL SCIENCE 10. (C) PRESENT-DAY PROBLEMS OF EUROPE. — MISS FITZHUGH.

Second year. Two class periods and two hours of preparation weekly.

Text book on Twentieth Century Europe supplemented by work from current literature. Emphasis upon industrial and economic phases.

HISTORY AND SOCIAL SCIENCE 11. (C) CONTEMPORARY ECONOMIC PROBLEMS. — MISS CRUTTENDEN.

Fourth year. Two class periods and two hours of preparation weekly.

Continuation of work of third year. Discussion of contemporary economic problems as developed in current literature and through personal investigation.

HISTORY AND SOCIAL SCIENCE 12. (B) METHODS OF TEACHING HISTORY IN THE JUNIOR HIGH SCHOOL. — MISS CRUTTENDEN.

First year. Two class periods and two hours of preparation weekly for one-half year; three class periods and three hours of preparation weekly for one-half year.

Development of general world history as it pertains to and explains American history from the period of discovery to 1783.

EDUCATION

EDUCATION 1. (A, B) FIRST COURSE IN PSYCHOLOGY. — MR. ROCKWELL.

First year. Two class periods and two hours of preparation weekly.

The course includes: how the nervous system works; the nature and influence of inherited tendencies; habit formation; the nature of learning; the conditions that favor learning, better methods of getting ideas and skills; better ways of thinking; and individual differences and their measurement.

EDUCATION 2. (A) EDUCATIONAL PSYCHOLOGY. — MR. ROCKWELL.

Second year. One class period and two hours of preparation weekly.

The course includes: aims of elementary education; its trends; applications of psychology to elementary school subjects; problems of teaching; problems of discipline; activities and ideals of professional teachers; the teacher's part in the whole organization of a school system; problems of evaluating school activities.

EDUCATION 3. (B) EDUCATIONAL PSYCHOLOGY WITH SPECIAL REFERENCE TO THE JUNIOR HIGH SCHOOL. — MR. MOODY.

Third year. Three class periods and three hours of preparation weekly.

The larger problems of educational psychology: changes to be made in human beings; agencies employed in making these changes; variations in the capacities which human beings possess for acquiring the changes; economic methods by which the changes may be brought about. A discussion of differentiated curricula; special classes; technique of educational and intelligence tests; efficiency of school methods; remedial instruction for deficiencies discovered through the use of tests; psychology of school subjects.

EDUCATION 4. (C) FIRST COURSE IN THE PSYCHOLOGY OF BUSINESS. — MR. ROCKWELL.

First year. Two class periods and three hours of preparation weekly.

The course includes: a short study of the use of the nervous system; inherited tendencies; how we learn; effect of time and effort on what we practice; economy in mental processes used; the power of suggestion; and a study of human desires and motives.

EDUCATION 5. (C) PEDAGOGY AND ITS APPLICATION IN COMMERCIAL TEACHING. — MR. SPROUL.

Fourth year. Two class periods and two hours of preparation weekly.

The course embraces a brief summary of the history of commercial education in the United States; the place of commercial training in the high school; recent surveys; present status and tendencies; the organization and administration of a commercial department; the duties of a director; and special methods in the teaching of the technical commercial subjects.

EDUCATION 6. (A) PRACTICE TEACHING.

Second year. Ten weeks, thirty periods weekly.

EDUCATION 7. (B) PRACTICE TEACHING.

Second and third year. Ten weeks, thirty periods weekly.

EDUCATION 8. (C) PRACTICE TEACHING.

Fourth year. Eight weeks, thirty periods weekly.

EDUCATION 9. (A, B) PEDAGOGY. — MR. PITMAN.

Second year of elementary course; third year of junior high course. One class period and one hour of preparation weekly.

The ends and aims of education; contemporaneous problems in elementary and

secondary education; special investigations and reports; school organization and administration; school laws of Massachusetts; professional ethics.

EDUCATION 10. (C) EDUCATIONAL PSYCHOLOGY. — MR. ROCKWELL.

Second half of second year. Three class periods and three hours of preparation weekly.

The course includes: facts and principles applicable to the problems of teaching; development of the bases of method; the growth of mental processes; problems in the amount and distribution of practice; in the selection and organization of teaching materials; in the evaluation of school work; in evaluating personality.

EDUCATION 11. (A, B) OBSERVATION AND PARTICIPATION IN THE TRAINING SCHOOL. — MR. MOODY and the several grade supervisors.

One-half of first year. One class period, one observation period, and one hour of preparation weekly. This is in addition to the observation which is carried on in the training school under the direction of the instructors in the several courses in the normal school.

Aims: (1) to introduce the student to the problems of teaching through the study of the organization of the routine of the classroom, the program, economy of classroom management, discipline, attendance, and lesson plans; (2) the observation and the discussion of the teaching of the supervisors with written reports on the work observed; and such participation in the work of the training school as seems feasible.

EDUCATION 13. (A) ELEMENTARY SCHOOL TECHNIQUE. — MR. MOODY.

Second year. One class period and one hour of preparation weekly.

Problems growing out of teaching; factors that condition teaching; selection and organization of subject-matter; formal class period; methods of teaching; reconsideration of the psychology of how children learn, the laws of learning; forming habits and rote associations; developing the emotions; developing individuality; adapting instruction to individual differences; teaching pupils to study; measuring results of teaching; tests and standards.

EDUCATION 12. (D) PSYCHOLOGY OF SUBNORMAL CHILDREN. — MISS WALKER.

Third year. Four class periods and four hours of preparation weekly.

The course aims to give a fundamental knowledge of individual differences.

The scientific study of mental defectives; causes; heredity versus environment; preventive measures; identification; classification; organization of education.

EDUCATION 14. (D) METHODS. — MISS WALKER.

Third year. Four class periods and four hours of preparation weekly.

State laws for the establishment of special classes; their history and function; organization and equipment. Training of capacities; follow-up work. Visits to state institutions. Observation periods in the special class in the training school.

EDUCATION 15. (D) MENTAL TESTING. — MISS WALKER.

Third year. Three class periods and three hours of preparation weekly.

Group and individual tests of retarded children. Binet-Simon method studied and used; results to help determine classification of children observed in special class. State clinics; "ten fields of inquiry"; diagnosis; clinical studies.

EDUCATION 16. (D) PRACTICE TEACHING.

Third year. Ten weeks, thirty periods weekly.

Observation and practice teaching in special class in the training school and in selected schools elsewhere.

EDUCATION 17. (C) COMMERCIAL EDUCATION. — MR. SPROUL.

One-half of third year. Three class periods and three hours of preparation weekly.

Aim: to develop the principles underlying business education; to acquaint the student with the agencies for commercial education; and to review current practices in high schools.

EDUCATION 18. (C) EDUCATIONAL AND VOCATIONAL GUIDANCE. — MR. SPROUL.

WORK OF THE SPECIAL CLASS: KINDERGARTEN SLIDE

Fourth year. Two class periods and two hours of preparation weekly.

Aim: to acquaint students with the problems and principles of educational and vocational guidance, and their importance and application in junior and senior high school courses.

MUSIC

MUSIC 1. (A, B) ELEMENTARY MUSIC. — MR. ARCHIBALD.

First year. One class period and one hour of preparation weekly.

Voice training, music reading, ear training, and writing of symbols used to represent the time and tune of music. The subject-matter of this course is practically the work of the first six grades of the elementary school.

MUSIC 2. (A)—MR. ARCHIBALD.

Second year. One class period and one hour of preparation weekly.

Aim: to familiarize the students with the music work of the first six grades, and to acquaint them with the best ways of presenting the problems. The child voice, song interpretation, and part singing are some of the topics discussed. Outlines of the grade work are given and teaching plans of the principal subjects are made.

MUSIC 3. (B)—MR. ARCHIBALD.

Second year. One class period and one hour of preparation weekly.

In addition to the work of Music 2 some of the problems of the junior high school are studied.

MUSIC 4. (A, B, C) MUSIC APPRECIATION AND GENERAL SINGING. — MR. ARCHIBALD.

Required of all students in the school. One class period weekly throughout the course.

Chorus singing, including community music and the study of standard choruses. Students receive instruction in the use of the baton and in chorus conducting. During the year several concerts and lectures are given by professional musicians.

ART

REPRESENTATION, DESIGN, HANDWORK

DRAWING AND HANDWORK 1. (A, B) — MISS BAIRD.

First year. Two class periods and one hour of preparation weekly.

DRAWING: A COURSE IN DRAWING, COLOR, DESIGN AND ART APPRECIATION.

The course is designed to create and foster a knowledge and appreciation of art. There is frequent observation of teaching and methods in the training school. The illustrative work is closely related to other studies in the curriculum. A general review of work experienced or observed in the public schools is included.

HANDWORK: A COURSE DEALING WITH SIMPLE PROJECTS IN INDUSTRIAL ARTS.

Aims: to train teachers for the first six grades of elementary schools along practical and industrial lines; to give the ability to make, read and apply simple structural drawings and patterns; to use simple hand tools; and to apply this knowledge of craftsmanship to other studies in the curriculum. There is frequent observation of the work in the training school, visits to shops, gardens, etc.

DRAWING AND HANDWORK 2. (A)—MR. WHITNEY.

Second year. Three class periods and two hours of preparation weekly.

DRAWING: A COURSE IN DRAWING, COLOR, DESIGN, ART APPRECIATION AND METHODS OF TEACHING.

Aims: to prepare teachers for the first six grades of elementary schools and to cultivate taste and art appreciation. Courses of study are planned and methods of teaching are studied and applied in the actual work in the training school. Blackboard sketching is applied to other studies in the curriculum.

HANDWORK: A COURSE DEALING WITH ELEMENTARY PROJECTS IN BOOKBINDING, WEAVING, ETC.

As in the previous course the aims are: the ability to make, read and apply structural drawings and patterns to the actual construction of simple projects; the ability to teach such work in the first six grades in the elementary schools;

to appreciate purpose and fitness and good structural design; and to apply these to all industrial work.

DRAWING AND HANDWORK 3. (B)—MR. WHITNEY.

Second year. Three class periods and two hours of preparation weekly.

DRAWING: This course includes harmonies of color to be applied to school projects, the interior of the schoolroom or home; plans and color schemes for flower gardens, etc.; decorative and structural design; pictorial drawing involving principles of foreshortening and convergence; picture study; nature drawing; and blackboard sketching.

HANDWORK: A continuation of 1, consisting of more advanced projects, adapted to the junior high school; observation and practice in bookbinding, lettering, woodworking and the relation of drawing and the crafts to gardening and sewing.

DRAWING AND HANDWORK 4. (B) METHODS AND PRACTICE FOR STUDENTS PREPARING TO TEACH IN GRADES 7 AND 8 AND THE JUNIOR HIGH SCHOOL. — MR. WHITNEY.

Third year. Four class periods and two hours of preparation weekly. Elective.

DRAWING: Aims: to offer a general survey of the history of architecture, sculpture, and painting; to familiarize the pupils with the work required in the higher grades along the lines of drawing, applied design, nature work; and through visits to museums, libraries, and historic buildings to cultivate an appreciation of the best things in art. The course comprises the preparation and dyeing of papers, reeds and fabrics for the work in industrial arts; the making and application of good designs in form and decoration; the drawing of trees, plants and details studied in the nature course; and the drawing of simple objects and groups in outline, mass and color. The major part of the course is devoted to definite school projects, methods and practice teaching.

HANDWORK: Observation and practice in pattern drawing, projection, and development; bookbinding, weaving, modeling, printing, and elementary woodworking. The school and home gardens are planned, drawings made to scale, and the color schemes applied.

DRAWING AND HANDWORK 5. (D) HANDWORK AND DESIGN FOR STUDENTS PREPARING TO TEACH IN SPECIAL CLASSES. — MR. WHITNEY.

Third year. Two class periods weekly, with preparation as required by the instructor.

The course consists of a general review of representation, design, and handwork as outlined in the state syllabus on minimum essentials, but applied to the needs of teachers of special classes. The representation deals with the construction and drawing necessary in all hand work; the design, with the structural, decorative, and applied design desirable in such work. The hand work deals with the actual construction of individual school or home projects. The work involves projects in bookbinding, box making, weaving of various types, cement work, and similar problems in construction.

INDUSTRIAL PROJECTS 1. — MR. LITTLE. Elective, and given outside school hours.

WOODWORK. Aim: to develop a course of study in manual training suitable for junior high school. The course will include the selecting and designing of a group of suggestive products, with the study of tools, processes, and elements of construction.

PRINTING. Aim: to develop a greater respect for spelling, punctuation, arithmetic, and grammar through the art of printing. The course will include composition, proof reading, stone work, press work, and paper cutting.

GARDENING. A vegetable garden comprising half an acre is planted, cultivated, and harvested by boys of grades seven and eight. Students will observe and assist in this work.

INDUSTRIAL PROJECTS 2. (D) SHOP WORK, PRINTING, GARDENING, FOR STUDENTS PREPARING TO TEACH IN SPECIAL CLASSES. — MR. LITTLE.

Third year. Two class periods weekly, with preparation as required by the instructor.

The course in shop work consists of simple construction involving the use of woodworking tools, based upon appropriate designs. It also includes chair caning and other simple household repairs.

The course in printing includes simple composing, proof taking, stone work, and general press work.

The course in gardening will consist of the study of laying out, selecting seed, planting, culture, and harvesting of the common vegetable garden.

COOKING AND SEWING 1. — MISS ADAMS. Elective, and given outside school hours.

The cooking course is designed to give a general knowledge of the principles of cooking, food values, preparation of foods, and serving of simple meals.

The purpose of the sewing course is to teach the student practical application of hand and machine sewing in making simple garments.

COOKING AND SEWING 2. (D) — MISS ADAMS.

Third year. Two class periods weekly, with preparation as required by the instructor.

The course in cooking will include the preparation and serving of simple dishes; a study of food classes and balanced meals; and simple school lunches.

The course in sewing will include the fundamental stitches; simple construction processes; and the making of simple garments.

GARDENING 1. (A) — MISS GOLDSMITH.

Second year. Constitutes a large part of the work in nature study for the spring months.

Aim: to give practical experience in garden work and acquaint the student with methods and devices for carrying on school and home gardens.

GARDENING 3. (B) — MISS GOLDSMITH.

Second year. Constitutes the work in nature study for the spring months.

Aim: to give experience in garden planning and the growing of common crops. Methods of cultivation and the care of both vegetables and flowers receive attention.

GARDENING 2. (B) — MISS GOLDSMITH.

Third year. Constitutes part of the work in nature study for the spring months.

Fulfills practically the same conditions as Gardening 1 (A), except that special attention is given to kinds of work required in grammar grades or the junior high school.

ARITHMETIC

ARITHMETIC 1. (A) METHODS OF TEACHING PRIMARY ARITHMETIC. — MISS STONE.

First year. Three class periods and two to three hours of preparation weekly.

This course takes up a professionalized treatment of subject matter for the first six grades of the elementary school; a study of standardized tests; some work in the social-economic arithmetic needed by every adult; a brief history of arithmetic to explain the present content of arithmetic courses; provision for bringing students up to standard skill in fundamental operations; provision for practice in problem solving.

ARITHMETIC 1. (B) SOCIAL-ECONOMIC ARITHMETIC. — MISS STONE.

First year. Three class periods and two to three hours of preparation weekly. (In 1927-1928, given five periods a week for a half year.)

This course contains a brief review of the subject matter of the first six grades; a thorough treatment, from the point of view of information rather than computation, of the following topics: percentage, banking, thrift, investment, taxes and insurance; provision for bringing each student up to standard skill in fundamentals; provision for practice in problem solving.

ARITHMETIC 2. (B) METHODS OF TEACHING ARITHMETIC IN GRADES 7 AND 8 AND IN THE JUNIOR HIGH SCHOOL. — MISS STONE.

Second year. Two class periods and one to two hours of preparation weekly.

This course takes up courses of study for grades 7 and 8; professionalized treatment of subject matter for these grades; standardized tests; a brief history of arithmetic to explain the present content of arithmetic courses; the teaching of intuitive geometry.

ARITHMETIC 4. (B) TEACHING MATHEMATICS IN THE THIRD YEAR OF THE JUNIOR HIGH SCHOOL. — MISS STONE.

Third year. Three class periods and two to three hours of preparation weekly. Elective.

This course is intended for students who wish to teach mathematics in the third year of the junior high school. It takes up phases of geometry, algebra, trigonometry, and a study of statistics adapted to the work. Text-books are reviewed and the subject matter covered in a practical way.

ARITHMETIC 3. (C) COMMERCIAL ARITHMETIC, ADVANCED COURSE. — MISS BRENNAN.

Second year. Two class periods and two hours of preparation weekly.

The course is designed to give a review of elementary principles in arithmetic, the application of these principles to commercial work, and methods of handling the subject in high schools.

GEOGRAPHY

GEOGRAPHY 1. (A) PRINCIPLES OF GEOGRAPHY AND METHODS FOR THE ELEMENTARY GRADES. — MISS FLANDERS.

First year. Three class periods, with regular field and laboratory work, and three hours of preparation weekly.

General course in geography showing how man's activities are influenced by the physical factors of his environment, such as relief, climate, and natural resources. Throughout the course, methods of teaching are discussed, with added emphasis in the last part of the year.

GEOGRAPHY 2. (B) CONTINENTAL GEOGRAPHY. — MISS FLANDERS.

Second year. Two class periods and two hours of preparation weekly, with occasional field trips.

This course develops a background for teachers in grades 7 and 8 and the junior high school. The continents are studied to build up a knowledge of their life relations, and to illustrate various methods of approach and treatment. Acquaintance is made with all of the modern textbooks, readers, and manuals, and with other supplementary material.

GEOGRAPHY 3. (B) JUNIOR HIGH SCHOOL GEOGRAPHY. — MISS WARE.

Third year. Five class periods, five hours of preparation, and occasional teaching lessons in the training school. Prerequisites, Geography 1 and Geography 2. Elective.

As this course is primarily to prepare students to teach geography courses of the junior high school it includes the following: a study of the great world powers and the problems that confront them; commercial and industrial geography; methods of teaching geography in the junior high school grades; current geography.

GEOGRAPHY 4. (C) PRINCIPLES OF GEOGRAPHY. — MISS FLANDERS.

First year. Two class periods and two hours of preparation weekly.

This course is designed as a foundation for all subsequent geography courses. A knowledge of the physiographic factors, their relations to each other, the diverse environments of the earth as determined by these relations, and life's responses to these diversities are the fundamentals of the science of geography.

GEOGRAPHY 6. (C) COMMERCIAL AND INDUSTRIAL GEOGRAPHY. — MISS WARE.

Second year. Four class periods and four hours of preparation weekly.

Aim: to prepare students to become teachers of commercial and industrial geography in high schools of New England. A course for high schools is built up and discussed, based upon the four fields of commerce and industry: primary production, transportation, manufacturing or secondary production, and consumption. All modern textbooks on the subject are used for reference, and various illustrative materials are introduced. The industrial countries are particularly studied with especial emphasis upon the United States. Many industries are studied by means of motion pictures.

GEOGRAPHY 7. (B) JUNIOR HIGH SCHOOL GEOGRAPHY. — MISS WARE.

Third year. Three class periods and three hours of preparation weekly, with occasional field trips. Prerequisites, Geography 1 and Geography 2. Elective.

Aim: to prepare students to become teachers of geography in grades 7 and 8 and the junior high school. A study is made of regional geography for the seventh grade through the selection and interpretation of the geographic regions of a type continent (usually South America); for the eighth or ninth grades a study is made of industrial and commercial United States, — its place as a world economic power. Considerable attention is paid to the geography of current world events.

GEOGRAPHY 8. (B) PHYSICAL GEOGRAPHY. — MISS WARE.

First year. Three class periods and three hours of preparation weekly.

This course is designed to furnish a training in the elements of physical geography necessary for advanced work in the field of geography.

SCIENCE

NATURE STUDY. (A) — MISS GOLDSMITH.

Second year. Four class periods and four hours of preparation weekly.

Occasional papers. Laboratory work given in place of regular preparation or recitation at the discretion of the instructor. The course is intended to give first-hand, working knowledge of the plants and animals of the locality and fit the students to teach nature study in the first six grades. Birds, insects, common mammals, trees, flowers, fruits, seeds, and germination are among the subjects taken. Soils, tillage and fertilizers are studied as an introduction to garden work.

(See Gardening 1 (A).)

BIOLOGICAL SCIENCE 1. (B) — MISS GOLDSMITH.

Second year. Four class periods and four hours of preparation weekly.

A course primarily intended to lay the foundation for Biological Science 2. Field work is done as long as the season permits, and laboratory work during the winter. Project work is carried on throughout the year. Students are made familiar with the plant and animal life common to the community, particular attention being given to the economic aspects. Occasional papers.

(See Gardening 3 (B).)

BIOLOGICAL SCIENCE 2. (B) — MISS GOLDSMITH.

Third year. Three class periods and three hours of preparation weekly. Elective.

The course is a continuation of Biological Science 1 (B), and is intended to prepare the student to teach in the grammar grades or the junior high school. It consists of recitations, laboratory and field work, discussions and presentations by the students, with occasional papers. Special emphasis is laid on research work and field trips, and the correlation with other branches of study such as civics, geography, English, and physical science. The consideration of such larger topics as forestry, the natural resources of a community, etc., form an important part of the work. Gardening occupies practically all of the spring term.

(See Gardening 2 (B).)

PHYSICAL SCIENCE 1. (A) — MR. WHITMAN.

Second year. Two class periods and two hours of preparation weekly.

The course is intended to afford a broad outlook over the field of science and an insight into the ways in which science is useful to man. Students report to the class the results of their own individual study. The project method is employed to a large extent.

It is recommended that the students put the major part of their time upon those science projects which are of special interest to them, or which they have exceptional opportunities to study. The natural interests of different individuals will, when brought together, give a course which covers the home, the school, public utilities, industries and the world of nature.

PHYSICAL SCIENCE 2. (B) — MR. WHITMAN.

Second year. Two class periods and two hours of preparation weekly.

This course is organized around the home and community and includes the important science principles involved in the human activities of the environment. Science as training for citizenship, and the relation of science to civics, are given attention. Opportunity for project work by individual students is offered.

GENERAL SCIENCE 2. (B) — MR. WHITMAN.

Third year. Three double laboratory periods; equivalent to three hours of class work and three hours of preparation weekly. Elective.

This course aims to prepare one to teach general science in the junior high school. The work consists largely in laboratory practice, including experiments, preparation of apparatus for demonstration, and devices for teaching in the seventh and eighth grades or first year of high school. It also provides teaching practice under supervision in the training school.

GENERAL SCIENCE 1. (C) — MR. WHITMAN.

First year. Two class periods and two hours of preparation weekly.

The study of science in everyday life and of science in relation to the arts and industries. Students report on investigations or projects in addition to the formal class work. Many scientific principles involved in common processes are illustrated by demonstration.

PHYSICAL EDUCATION

A gymnasium uniform is required of all women students. This may be purchased at a minimum cost after entrance to the school.

PHYSICAL EDUCATION 1. (A, B) PHYSICAL TRAINING. — MISS BROWN.

First year. Two gymnasium periods weekly.

A course in all phases of physical education is given in the first year to improve the physical condition of the student. Attention is paid to individual needs, which are ascertained from a thorough medical examination given each student upon entrance. Material is also given which is adaptable to elementary school teaching, — gymnastics, folk dancing, and games.

PHYSICAL EDUCATION 2. (A) PHYSICAL TRAINING. — MISS WALLACE.

Second year. Two gymnasium periods weekly.

One period a week is devoted to work which is for the benefit of the student herself, emphasis being placed on corrective exercises and on the learning of sports which may be followed in later life. In the second period, weekly, the student is given a comprehensive program of work in physical education for the first six grades, with methods and opportunity for practice teaching.

PHYSICAL EDUCATION 3. (B) PHYSICAL TRAINING. — MISS BROWN AND MISS WALLACE.

Second and third years. Two gymnasium periods weekly.

The type of work follows that of Physical Education 1. Games, athletics, folk dances, and corrective exercises which are suitable for the child in the junior high school are given, with practice teaching of this work.

PHYSICAL EDUCATION 4. (A) GENERAL HYGIENE. — MISS WALLACE.

Second year. Two class periods and two hours of preparation weekly.

A course which further aims to give the student a knowledge of the functioning and care of his own body, as well as the newest and best methods of presenting the subject of health to children of the elementary school. The study of communicable diseases, first aid treatment, and correct sanitation of a school building are included.

PHYSICAL EDUCATION 5. (B) HYGIENE AND SANITATION. — MISS WALLACE.

Third year. Two class periods and two hours of preparation weekly.

To the work of the preceding course is added those phases of hygiene and sanitation which are of most interest to pupils in the seventh and eighth years of school, such as public health problems, milk and water supply, sewage disposal, and the control of communicable diseases.

PHYSICAL EDUCATION 6. (A, B, C) PERSONAL HYGIENE. — MISS BROWN.

First year. One class period and one and one-half hours of preparation weekly.

The purpose of this course is to aid the student to form right habits of living, and to gain some knowledge of the function and care of his own body.

PHYSICAL EDUCATION 7. (C) — MISS BROWN.

Each year of commercial course. One gymnasium period weekly.

The aim of this course is to provide the right kind of regular exercise throughout the school years, to stimulate a love of activity which shall continue after school years, and to develop the posture, physical poise, and alertness of mind and body which are so necessary in the equipment of a teacher.

SHORTHAND

SHORTHAND 7. (C) GREGG. INTRODUCTORY COURSE. — MISS EDWARDS.

First year. Four class periods and five hours of preparation weekly.

Aims: to train students to read shorthand notes fluently and to transcribe them accurately; to develop habits which make for efficiency in taking dictation; and to build up a vocabulary usable at the rate of sixty words a minute.

(For conditional substitute for this course, see English language 17, Typewriting 1a and Office Training 1.)

SHORTHAND 8. (C) GREGG. ADVANCED COURSE. — MISS EDWARDS.

Second year. Three class periods and three hours of preparation weekly.

Aims: to drill on fundamentals; to develop a word-carrying capacity; to train the student to write from dictation from one hundred to one hundred twenty-five words a minute, and to read back or transcribe accurately.

SHORTHAND 6. (C) DEVELOPMENT OF AMANUENSIS CAPACITY. — MISS EDWARDS. Elective. Taken in conjunction with Typewriting 6.

One-half of third year. Three class periods and four hours of preparation weekly.

Further development of individual skill in shorthand writing and its practical applications.

SHORTHAND 9. (C) GREGG. METHODS COURSE. — MISS EDWARDS.

First half of fourth year. Three class periods and three hours of preparation weekly. Elective.

Aims: to discuss methods of teaching shorthand, of handling dictation and speed practice, of correlating shorthand and typewriting through transcription; to help students become acquainted with text books, readers, books of dictation material, and prognostic and diagnostic tests and charts; to work out suggestive courses of study; to develop type lesson plans and demonstrate their use before the class.

TYPEWRITING

TYPEWRITING 1. (C) FOUNDATION COURSE FOR BEGINNERS. — MISS BADGER.

First year. Four class periods weekly.

Aim: to make of each student an accurate touch operator by giving a thorough knowledge of the keyboard and of the use of the various parts of the machine, and by teaching him to write rhythmically. During the last quarter accuracy tests are given.

(For conditional substitute for this course, see English Language 17, Typewriting 1a and Office Training 1.)

TYPEWRITING 1a. (C) — MISS BADGER.

First year. Two class periods weekly.

Aims: to develop an efficient typewriting technique; to develop ideals and ability in arrangement; and to give a considerable amount of practical experience. (A conditional substitute, with English 17 and Office Training 1, for Shorthand 7 and Typewriting 1.)

TYPEWRITING 2. (C) ADVANCED COURSE. — MISS BADGER.

Second year. Three class periods and one hour of preparation weekly.

Letter arrangement, tabulation, legal work, specifications, etc. Special attention is given to speed work and transcription from shorthand notes.

TYPEWRITING 3. (C) METHODS COURSE. — MISS BADGER.

Second half of fourth year. Three class periods and two hours of preparation weekly for eleven weeks. Elective.

This course discusses the work of Typewriting 1 and Typewriting 2 from the professional viewpoint. General methods are considered; textbooks are exam-

ined and criticized; courses of study, adapted to different groups of students, are planned.

TYPEWRITING 6. (C) AMANUENSIS TYPING. — MISS EDWARDS.

One-half of third year. Three class periods weekly in conjunction with Shorthand 6. Elective.

Aim: increased excellence and attainment of commercial standards in transcription.

OFFICE TRAINING

OFFICE TRAINING 1. (C) OFFICE APPLIANCES. — MISS BADGER.

First year. Four class periods and three hours of preparation weekly.

Students entering with satisfactory knowledge and skill in shorthand and typewriting may substitute this course with English language 17 and Typewriting 1a for Shorthand 1 and Typewriting 1.

Aims: to give the student facility in operating office appliances such as the multigraph, the typesetter, the adding and calculating machines, the dictaphone, the mimeograph and the mimeoscope; also instruction and practice in the various methods of filing.

OFFICE TRAINING 3. (C) SECRETARIAL TRAINING. — MISS EDWARDS.

Fourth year. Four class periods and six hours of preparation weekly. Elective.

Aims: to give the students a thorough review of filing methods and the opportunity to develop skill in the use of office machines; to drill them in some phases of technical English necessary for the secretary's correspondence and for the preparation and editing of matter to be printed; to give some training in proofreading and the use of proofreaders' marks; to make a study of the various forms of communication used in business; to accustom the students to the use of reference books; to consider the mental qualifications and the personal traits and habits which tend to make a successful secretary.

BOOKKEEPING

BOOKKEEPING 1. (C) INTRODUCTORY COURSE. — MR. PHILLIPS AND MISS BRENNAN.

First year. Three class periods and three hours of preparation weekly.

Aims: to teach the elementary principles of accounting and the routine of bookkeeping, and to develop an appreciation of business situations and problems. The class will be divided into two sections according to their preparation, and those who have studied the subject previously will be required to do advanced work.

BOOKKEEPING 2. (C) ADVANCED COURSE. — MR. PHILLIPS.

Second year. Three class periods and four hours of preparation weekly.

Special attention is given to principles underlying the construction of accounts and their classifications, and the preparation and interpretation of business statements to show condition and progress of the business. The application of accounts to varied lines of work, elements of cost accounting and variations due to form of organization are studied.

BOOKKEEPING 3. (C) ELEMENTARY ACCOUNTING. — MR. PHILLIPS.

Fourth year. Four class periods and four hours of preparation weekly. Elective.

A comprehensive study of balance sheets and statements of various kinds; a detailed consideration of assets and liabilities, depreciation, reserves, surplus, capital and revenue expenditures, statements of affairs, deficiency account, realization and liquidation statements; also the study of accounts of non-trading concerns as societies, clubs, etc. The course includes also a study of the problems, methods, and aims of teaching bookkeeping in the high school.

BOOKKEEPING 6. (C) COST ACCOUNTING. — MR. PHILLIPS.

One-half of third year. Three class periods and three hours of preparation weekly. Elective.

A study of factory cost findings illustrating production records and their significance to business executives; work in the preparation of technical manufacturing reports and statements.

TYPEWRITING ROOM

SALESMANSHIP

SALESMANSHIP 1. (C) RETAIL SELLING. — MISS BRENNAN.

First half of second year. Three class periods and three hours of preparation weekly.

The study of merchandise, store system, store practice, business ethics, employment problems; drill in fundamental operations of selling.

Students will participate in actual selling, in approved stores, during the month between Thanksgiving and Christmas. It is recommended that, when possible, students obtain a month or more of selling experience before taking up the course.

SALESMANSHIP 2. (C) ADVANCED SALESMANSHIP AND ADVERTISING. — MISS BRENNAN.

One-half of third year. Two class periods and two hours of preparation weekly.

Aims: to develop the fundamental principles of salesmanship and to show their application; to study the relation of advertising to the sales department, other departments, and the business as a whole; to make a general survey of the various media of advertising, including commercial art, periodicals, house organs, trade-marks, etc.

BUSINESS

BUSINESS 1. (C) BUSINESS ORGANIZATION AND ADMINISTRATION. — MR. PHILLIPS.

One-half of third year. Three class periods and three hours of preparation weekly.

The study of business as a science; forms of business enterprise; functional divisions of production, sales, accounting and finance; problems of management, labor and its reward; types of internal organization.

BUSINESS 2. (C) ELEMENTS OF BANKING. — MR. PHILLIPS.

Fourth year. Two class periods and two hours of preparation weekly.

The economic service of banks and banking systems; classification of banks; the Federal Reserve system; foreign exchange and credit; the detailed study of the internal organization and procedure of a typical bank.

BUSINESS 3. (C) STATISTICS. — MR. SPROUL.

One-half of third year. Two class periods and two hours of preparation weekly. Elective.

The course emphasizes the vital importance of statistics in the conduct of business. It discusses the collection and organization of useful data, and various methods employed in graphic representation.

BUSINESS 4. (C) MARKETING AND FOREIGN TRADE. — MR. SPROUL.

First half of fourth year. Three class periods and three hours of preparation weekly. Elective.

A study of the problems involved in theory and practice, with the means and methods in current use; present tendencies.

The work in foreign trade is intended to acquaint the student with the fundamentals and with the approved technique in the handling of foreign trade documents.

BUSINESS 5. (C) TRANSPORTATION. — MR. SPROUL.

Last half of fourth year. Three class periods and three hours of preparation weekly for eleven weeks. Elective.

Aims: to develop a general idea of the importance of transportation to all business activity; to state the problems involved, and to study how they are being met; to study the relations of the railroads to the shipping public, the development of our railroad systems, classifications, rates, Interstate Commerce Commission.

BUSINESS 6. (C) BUSINESS EXPERIENCE.

One-half of third year.

The full time will be spent in practical participation in business, under supervision, in places approved by the school. The class will be divided into two sections, one section working in business positions while the other is attending school.

THE MANAGEMENT OF THE SCHOOL

Students in a school for the professional training of teachers should be self-governing in the full sense of the term. Each student is allowed and is encouraged to exercise the largest degree of personal liberty consistent with the rights of others. The teachers aim to be friends and leaders. They do not withhold advice, admonition and reproof, when needed; but their relations in these respects are usually with individuals instead of with classes, and are of the most helpful and generous nature. Those students who, after full and patient trial, are found unable to exercise self-control and unworthy of confidence, are presumed to be unfit or unlikely to become successful teachers, and will be removed from the school. Others, also, who through no fault of their own, but in consequence of conspicuous inaptitude, or physical or mental deficiencies, are unfit for the work of teaching, will be advised to withdraw, and will not be graduated.

Many matters pertaining to the general welfare of the school are referred for consideration to the school council. This is a representative body, consisting of the principal, three other members of the faculty, and members chosen by each of the several classes. Thus the students, through their representatives, have a voice in the management of the school, and also assume their share of the responsibility for its success.

REGULATIONS

1. Regular and prompt attendance at all sessions of the school is expected of every student. Those who find it necessary to be absent for more than a single day should so inform the principal. For all avoidable absence—including that for teaching as substitutes—the permission of the principal must be obtained in advance.

2. Students who are withdrawing from the school must inform the principal of their decision, and must return all the books and other property of the school which are charged to them. Those who fail to do so promptly must not expect any recommendation or indorsement from the school.

3. Any property of the school which is lost or seriously injured by students must be paid for by them.

4. Although the school has no dormitories, it recommends to students who are to live away from their homes, houses in Salem where board and room may be obtained at reasonable prices. These houses, in addition to being suitable in other respects as homes for students, meet the following conditions which are prescribed by the State Department of Education: They receive no boarders other than students and instructors of the normal school; the same house does not receive both men and women students; the number of students in each house is limited to a small family group.

All students who board away from their homes during their membership in the school are required to live in the houses recommended by the school. Exceptions to this rule are made for those whose parents wish them to live with relatives or intimate personal friends, but in such cases the parents must first inform the principal of the school of the circumstances, in writing, and receive his approval. No final arrangement for board or room may be made without the previous consent of the principal. No change in room or in boarding place may be made by any student without the previous approval of the principal.

Students living in groups in approved houses are expected to form habits which are to the advantage of their own work and that of their companions. The hours from seven to nine-thirty in the evening from Monday to Thursday, inclusive, should be observed as a period of study. Exceptions to this rule should be made only with the previous approval of the principal. Except under unusual conditions, lights should be out by ten o'clock. If students find it necessary, for any reason, to be absent from the house on any evening they should inform their landladies of their plans. Boarding students may not be absent from the city over night without the consent of the principal.

Those persons who receive our students into their homes, must, of necessity, assume responsibility for their conduct in the same measure as would be re-

quired of teachers or matrons in charge of school dormitories. They are therefore expected to report to the principal any impropriety of conduct on the part of students which ought to be known by him or any behavior of theirs which would be considered improper in a well-regulated dormitory.

EXPENSES, AID, LOAN FUNDS

EXPENSES. — Tuition is free to all residents of Massachusetts. Students admitted from other states are required to pay a tuition fee of one hundred dollars per year, of which sum one-half is due on the first day of the school year in September and the other half February 1. An incidental fee of ten dollars, payable annually, will be charged all students attending State normal schools; this is due on the first day of the school year, and must be paid immediately. Textbooks and supplies are free, as in the public schools. Articles used in school work which students desire to own will be furnished at cost. The expense of room and board for two students rooming together, within easy distance of the school, is from eight dollars each per week upward.

SCHOOL RESTAURANT. — A restaurant is maintained in the building, in which is served at noon each school day a good variety of wholesome and attractive food at very reasonable prices.

STATE AID. — To assist those students, residents of Massachusetts, who find it difficult to meet the expenses of the course, financial aid is furnished by the State to a limited extent. Applications for this aid must be made in writing to the principal, and must be accompanied by such evidence as shall satisfy him that the applicant needs assistance. This money is received at the end of each half of the school year.

LOAN FUNDS. — Through the generosity of members of the faculty and graduates of the school several funds have been established, all of which, by vote of the Salem Normal School Association, are administered as loan funds or the income applied to scholarships. Students may thus borrow reasonable sums of money with which to meet their expenses during their connection with the school, and payment may be made at their convenience, after they have secured positions as teachers.

These loan funds were founded by graduates of the school as memorials to Dr. Richard G. Edwards, principal from 1854 to 1857; to Professor Alpheus Crosby, principal from 1857 to 1865; to Dr. Daniel B. Hagar, principal from 1865 to 1895; to Dr. Walter P. Beckwith, principal from 1895 to 1905 and to Mr. J. Asbury Pitman, principal from 1906 to the present time. The total amount of money now available is about seven thousand dollars. The principal will gladly receive and credit to any of the above funds such contributions as graduates and friends of the school may be disposed to make. Frequently a little timely financial aid from this source may save to the profession an efficient teacher.

EMPLOYMENT OF GRADUATES

Although the school can assume no responsibility for securing positions for its graduates, there are ample opportunities open in Massachusetts to those students who have maintained thoroughly good records in both the normal school and the training school.

The necessity for a rate of salary which will command the services of teachers of native ability, thorough training, and a professional attitude toward their work has been generally recognized. Towns and cities have provided for generous increases, and the State, by legislative enactment, has made provision for equalizing, to a considerable extent, educational opportunity through the appropriation annually of a large school fund. A generous proportion of this is used to increase the salaries of teachers in communities whose resources are limited. Graduates of the elementary course may now expect to receive from nine hundred to one thousand dollars for their first year of service; graduates of the junior high, the commercial, and the special education courses — the latter preparing teachers for special classes and for the deaf — receive substantially higher salaries.

The principal is constantly called upon to recommend teachers for desirable positions. Correct information from the alumni regarding changes in their positions and salaries is of the greatest importance to them in securing, through the school, opportunities for professional advancement.

The co-operation of school officials in keeping the principal informed as to the success of the graduates is greatly appreciated by him.

SCHOLARSHIPS FOR GRADUATES

There are offered at Harvard University four scholarships, each of an annual value of one hundred fifty dollars, for the benefit of students in Harvard College who are graduates of any reputable normal school in the United States. The School of Education of Boston University offers free tuition for one year to a limited number of graduates of the normal schools of New England, the students to be recommended by the faculties of the schools.

Practically all New England colleges give suitable credit to graduates of the school for courses taken here. Teachers College of Columbia University, also, is liberal in its attitude towards our alumni who go there for advanced professional study.

NOTICES TO SCHOOL OFFICIALS

All interested persons, especially those connected in any way with educational **work**, are cordially invited to visit the school, to inspect the buildings and equipment, or to attend the exercises in its classrooms or training school at any time and without ceremony. The office is open throughout the summer vacation.

Superintendents and other school officials are requested to send to the school copies of their reports, directories, courses of study and other publications of common interest. The courtesy will be appreciated and reciprocated.

GENERAL INFORMATION

HISTORICAL SKETCH

The State Normal School at Salem was opened to students September 12, 1854. It was the fourth normal school established by the State of Massachusetts. Its first building stood at the corner of Broad and Summer streets. This was enlarged and improved in 1860, and again in 1871. After twenty-five years the accommodations proved inadequate to meet the increased demands upon a modern normal school, and an appropriation was made by the Legislature for a new building, which was first occupied by the school December 2, 1896. A new training school building was occupied for the first time December 2, 1913. The site, buildings and equipment represent a value of approximately one million dollars, and it is believed that the Commonwealth here possesses an educational plant as complete and convenient as any of its kind in this country.

DECORATIONS

It is generally conceded that no building or schoolroom is finished or furnished which lacks beautiful and artistic decorations, not only because these objects are beautiful in themselves, but because of their refining and educative value. There is a silent influence resulting from the companionship of good pictures or casts, elevating the thought, and creating a dislike for the common, ugly, and inferior type of decoration so often seen. The school has many pictures and casts, the gifts of the students, the faculty, and other friends of the school. All these have been selected with great care and artistic judgment so that the whole is harmonious.

THE TEACHERS AND STUDENTS

The school during its history has had five principals and one hundred thirty-three assistant teachers. The development of the training schools began in 1897, and with them one hundred two persons have been connected as teachers. Twenty-five teachers are now required in the normal school and fourteen in the training school.

More than nine thousand students have attended the school.

THE LOCATION AND ATTRACTIONS OF SALEM

No place in northeastern Massachusetts is more easily accessible than Salem. It is on the main line of the eastern division of the Boston and Maine Railroad system, connecting with the Saugus branch at Lynn. A branch road to Wakefield Junction connects the city with the western division. There is direct communication with Lowell, Lawrence, Haverhill, Rockport and Marblehead. Trains are frequent and convenient. Salem is also the center of an extensive network of electric railways. Students coming daily to Salem on Boston and Maine trains can obtain monthly tickets at half price. Trains on the Marblehead branch stop at Loring Avenue, on signal, and many students find it more convenient to purchase their tickets to that station.

Salem is the center of many interesting historical associations, and within easy reach are the scenes of more important and stirring events than can be found in any other equal area of our country. The scenery, both seashore and country, in the neighborhood, is exceedingly attractive. There are many libraries, and curious and instructive collections belonging to various literary and antiquarian organizations, to which access is free. Lectures are frequent and inexpensive. The churches of the city represent all the religious denominations that are common in New England.

LECTURES AND CONCERTS

The regular courses of instruction are supplemented and enriched by lectures and concerts which are given frequently throughout each year. Following is the program for 1927-1928:

Concert	Glee clubs of Framingham and Salem Normal Schools
Concert	Glee clubs of Worcester Polytechnic Institute and Salem Normal School
Commencement address: The teacher's contribution to modern progress	William C. Bagley
Todd lecture: Creative reading	Dorothy Canfield Fisher
Memorial Day address	Carter R. Bishop
Golden rules of teaching	Thomas H. Briggs
The Massachusetts Teachers' Registration Bureau	Harry E. Gardner
Education — before and after	Sir John Adams
How the railways serve New England . .	G. C. Randall
The education of Lincoln	Cheesman A. Herrick

Tickets for the concerts of the Boston Symphony Orchestra are obtained for students upon application.

PICTURE EXHIBITIONS AND LECTURES

For several years the school has been utilizing the reflectoscope, the stereopticon, and the motion-picture machine to attain educational ends. Nearly every subject taught in the school is served by these pictures. The fields of geography are particularly well covered. Talks on the pictures as they are shown are given usually by members of the faculty, but occasionally they are given by students or lecturers from outside the school.

STUDENT ORGANIZATIONS

In order to promote a spirit of unity and good fellowship, to insure student participation in problems of general interest to the school, and to provide means for extended study along lines of individual interest, various clubs and associations have been established. Each organization elects its officers from its own membership and has also a faculty advisor. The following is a list of the organizations and a statement of their aims:

THE ART CLUB is comprised of pupils of the school who desire to pursue the study of art to a more advanced degree than the prescribed courses permit. At the regular meetings work is done along industrial lines and in the fine arts.

There are walks for the study of various types of architecture; visits to the Museum of Fine Arts and studios in Boston; sketching trips during the spring months; and a course of lectures is arranged for each season.

THE JOHN BURROUGHS CLUB, primarily intended for seniors, is organized for those particularly interested in nature work. Field trips, excursions to museums, greenhouses and gardens, talks on nature subjects, the making of such articles as bird feeders or nesting boxes, all form a part of the activities.

THE CAMERA CLUB offers an opportunity for practical photographic work. Its members get experience in exposure and in negative and print making. Home portraits, silhouettes, flash lights, enlarging and copying are among the types of work undertaken. Excursions are made for practice in selection of subject matter and in exposure. One or more exhibits of prints made by club members will be held each year.

THE CIVICS CLUB. Freshmen of the elementary course are eligible to join this club for an opportunity to study matters of civic interest and to take part in welfare projects similar to those under the direction of the Junior Red Cross.

THE COMMERCIAL CLUB. The purpose of this club is to promote the student's interest in the teaching of business subjects; to develop a consciousness of the relation between business activities and social well-being; and to develop desirable personal qualities, such as initiative, resourcefulness and dependability.

THE DRAMATIC CLUB is an organization comprised of a carefully selected group of students who are interested in studying the drama and who show some evidence of ability in producing plays. The purpose of the club is to study the development of the drama, with emphasis on its modern aspects. This includes a consideration of actors, authors, and stagecraft. Reading and seeing plays make up the program, aiming toward the culmination of a more ambitious production later in the school year.

THE GEOGRAPHY CLUB programs are presented by members of the club, and are of a distinctly geographic nature. Trips to foreign quarters in nearby cities and attendance at musical or dramatic productions which offer vivid pictures of foreign life, are two of the other prominent activities of the club.

THE GIRL SCOUT CLUB is planned not only to acquaint girls with scout activities which are of present interest to them but to help them to prepare for scout leadership when they become teachers. Club membership is open to all girls whether or not they are already girl scouts.

THE MUSICAL CLUBS. A glee club, selected by competition, rehearses weekly, sings at various entertainments of the school, and gives an annual concert. An orchestra is also one of the musical activities of the school.

THE STUDENTS' COOPERATIVE ASSOCIATION, which automatically includes all students and faculty members, is for the purpose of promoting a friendly co-operation in all relations of school life. Representatives from all classes and the faculty, together with the customary officers, form a council which suggests and directs the activities of the entire body, while details of the work are carried out by various committees.

TRI MU is not a secret society as it is open to all boarding students. It was originally organized to promote social activities among the boarding students. Now it also functions as a means for handling any problems relating to the boarding students' welfare.

THE WOMEN'S ATHLETIC ASSOCIATION is open to all the women students of the school. Its objects are: to create an interest in athletics among the women of the school; to set high standards and ideals and to promote good sportsmanship in all activities; to conduct contests and give awards.

THE MEN'S ATHLETIC ASSOCIATION is for the promotion of health and good fellowship. Basketball is the special interest of the association. Interclass games and an annual game of basketball with the alumni followed by a banquet and dancing are customary. The schedule of games with other institutions is limited.

CAMPUS GROUNDS

REGISTER OF STUDENTS

1927-1928

GRADUATES — CLASS CXIII — JUNE 17, 1927

ELEMENTARY COURSE — TWO YEARS

Abramovitz, Ann	Chelsea
Alpert, Mary Ruth	Chelsea
Anderson, Ethel Lillian	Pigeon Cove
Auger, Anita Emily	Lynn
Bishop, Helen Dolores	Salem
Bjorkgren, Christine Helena	Lexington
Bohan, Catherine Cecelia*	Gloucester
Burns, Josephina Antoinette	Ipswich
Cambridge, Doris Amy	Lexington
Cann, Margaret Louise	West Lynn
Chase, Myra Davis	Haverhill
Clancy, Elizabeth Agnes	Peabody
Clark, Helen May Elizabeth	Beverly
Clark, Ruth Alice	Lynn
Cleary, Doris Rose	Malden
Cody, Mary Louise	Lynn
Collins, Theresa Julia	Wakefield
Connelly, Mary Frances**	Chelsea
Daniels, Halden Louise	Malden
Del Campo, Elisa Enorina Lucia	Lynn
Dorney, Sarah O'Reilly	Medford
Dyer, Helen Frances	Everett
Feindel, Doris Marion	North Wilmington
Feldman, Lila Rose	Revere
Fischer, Evelyn Estelle	Lynn
Fitzpatrick, Katharine Veronica	Salem
Flynn, Mary Josephine	Arlington
Ford, Winifred Marie	Somerville
Freedman, Dorothy	Chelsea
Garrity, Rose Agnes	Chelsea
Gilman, Janice	Chelsea
Godfrey, Mary Ellen	Salem
Gold, Dora	Chelsea
Gold, Mollie Ruth	Chelsea
Golob, Freda	Chelsea
Goverman, Esther	Cambridge
Griffin, Grace Minerva	Danvers
Grossman, Gertrude	Chelsea
Haesey, Gertrude	Chelsea
Haley, Mary Elizabeth	Marblehead
Harris, Beatrice	Chelsea
